

Product Owner

40 hours/week

Are you an experienced Product Owner and currently looking for a new challenge? Would you like to work on developing online services in a socially responsible industry? At Digidentity you're at the right address. We're looking for a Product Owner to join our team immediately.

About Digidentity

Everybody should be able to identify, authenticate and authorize themselves online in a simple and secure manner. That is our mission! Digidentity develops and provides solutions for secure digital communication between individuals, companies and Governmental agencies.

For this purpose, we are continually developing new services and improving existing ones, such as 'Virtual Smartcard Technology'. This is to provide a unique digital identity, which a user keeps complete control of.

Digidentity is specialized in the delivery of certificates, authentication services and digital signatures. We work on systems which are currently being used by millions of users.

What can you expect?

- As Product Owner you steer to the development team;
- You and your team are responsible for developing and improving the features of the Digidentity platform (website and mobile);
- You are responsible for filling the backlog and determine the priorities of the various userstories;
- You organize sprint reviews and provide demonstrations together with the Scrum Master;
- As a Product Owner you are first point of contact of the stakeholders and you take care of managing the expectations;
- Challenging work in a relaxed, informal work environment;
- An enthusiastic development team where you can make a difference and innovativeness is promoted. Taking responsibility and knowledge sharing are the key words;
- We work in agile following Scrum methodology;
- Possibilities to develop and grow within the company;
- Digidentity consists of 70 international team members. Daily we gather together for lunch as a team. Coffee, tea, soft drinks are always available;
- An easily accessible office location, next door to The Hague HS station, and we reimburse OV travel expenses too.

What do we expect?

- Create high quality user stories, collaborating with other Product Owners, UX Designers, and Developers;
- Strong Stakeholder management by developing and sustaining strong working relationships other organizational peers;

- Contribute to roadmap definition and analysis, defining system roadmap required to meet core business outcomes, and creating high quality features and user stories to deliver on those outcomes;
- Ability to manage multiple releases concurrently;
- You oversee the entire chain and understand that the successful introduction of innovations is highly dependent on the quality of the physical product, the usability and the conversion of the platform;
- You are a powerful person who can manage the expectations with his knowledge and experience;
- You have a passion for the profession and would like to share your knowledge with others;
- You are pragmatic and solution-oriented with structuring and organizing qualities;
- Digidentity operates in a strong and rapidly changing domain and you feel comfortable with it.

Knowledge and experience required

- Bachelor or Master's degree;
- Minimum 3 years' experience as product owner or project manager including one year of experience with Agile framework;
- 1+ year of experience delivering software projects;
- Sound judgment and decision-making skills, ability to juggle multiple competing priorities, delegate within team, and ability to work under deadline pressures;
- Strong communication skills (verbal, written, and presentation).
