

React Front-end Developer

40 hours/week

Are you energized and enthusiastic about delivering high-quality solutions to end users? Are you looking for the opportunity to grow and develop your career within a dynamic, mission focused organization? Then we are looking for you! We would like to immediately add a React Native Front-end Developer to our team.

About Digidentity

Everybody should be able to identify, authenticate and authorize him or herself online in a simple and secure manner. That is our mission! Digidentity offers possible solutions for secure digital communication between individuals, companies and Governmental agencies. For this purpose, we are continually developing new services and improving existing ones, such as 'Virtual Smartcard Technology'. This is to provide a unique digital identity, which a user keeps complete control of.

Digidentity is specialized in the delivery of certificates, authentication services and digital signatures. We work on systems which are currently being used by millions of users.

What can you expect?

- Joining the team will mean working in a start-up like atmosphere, but still enjoying the benefits of a bigger company;
- You will work together with software developers who are passionate about building and releasing software which makes an impact;
- Building a product means we're here for the long haul; we all share responsibility for all code;
- Expect code testing and quality reviews so we can continuously and automatically release new versions;
- You and your team are responsible for developing and improving the features of the Digidentity's eSGNG application (web and mobile);
- Challenging work in an informal work environment;
- We work in agile following Scrum methodology;
- Possibilities to develop and grow within the company;
- Digidentity consists of 70+ (and growing) international team members;
- An enthusiastic team who encourages innovation and participation;
- Lunch, coffee, tea and soft drinks at your disposal;
- Travel compensation;
- Close proximity to Den Haag HS train station.

What do we expect?

- An expert in JavaScript and Node.js (expert means that you have solid knowledge of the language and the environment);
- You exterminate bugs and have the perseverance to outlive ever-improving iterations of the same app;
- You are never done learning & excited about new web technologies/techniques;
- You are a team player who wants to work in an agile environment;
- You Build solid front-end architectures that integrate easily with other systems and technologies;
- You have a passion for the profession and would like to share your knowledge with others;
- You are pragmatic and solution-oriented with structuring and organizing qualities;
- Digidentity operates in a strong and rapidly changing domain and you feel comfortable with it.
