

## Vacancy Ruby on Rails Developer

32-40 hours/week

*Are you an experienced developer who is looking for a new challenge? Do you also find privacy on the internet important? Would you like to work on the development of online services in a socially responsible business task? Then Digidentity is the place for you.*

### Developer at Digidentity

Digidentity is an identity provider. We provide internet users their own online identity. This isn't just our work, it's our mission. Digidentity products are developed in Ruby on Rails and Mobile (Android/iOS). For the continuous development of products we are currently expanding the existing development teams.

### What you can expect

- The development team consists of +/- 15 developers where you can make a difference and that initiative is promoted. Taking responsibility and sharing knowledge are the core principles;
- Working on the latest technologies in identity management, which are used by millions of users;
- Challenging work in a relaxing and informal work environment;
- Opportunities to growth within the organisation;
- A daily lunch and Friday drink;
- An easy to reach office location (by The Hague HS Station) with train costs provided;

### What we expect

- High quality code;
- You understand the best practices of using of frameworks and have a natural curiosity of developing within;
- You are up-to-date in the different versions of the named programming languages and carry out development according to security requirements;
- You are able to work alone and within a team environment;
- You are open, and proactive;
- Digidentity operates within a strong and fast changing sector and you would feel comfortable doing that.

### Knowledge and Experience

*We would love to hear from you if you match the following criteria:*

- Several years experience with Ruby on Rails;
- Solid knowledge of Git, branching and version administration;
- TDD/BDD;
- Experience with the realisation of production software;
- Knowledge of SAML, PKI and cryptography are essential;
- Good understanding of Dutch and English languages, written and spoken.
