

Senior Technical Consultant

40 hours/week

Are you a Senior Technical Consultant and currently looking for a new challenge? Would you like to work on developing online services in a socially responsible industry? At Digidentity you're at the right address. We're looking for a Senior Technical Consultant to join our team immediately.

About Digidentity

Everybody should be able to identify, authenticate and authorize themselves online in a simple and secure manner. That is our mission! Digidentity develops and provides solutions for secure digital communication between individuals, companies and Governmental agencies.

For this purpose, we are continually developing new services and improving existing ones, such as 'Virtual Smartcard Technology'. This is to provide a unique digital identity, which a user keeps complete control of.

Digidentity is specialized in the delivery of certificates, authentication services and digital signatures. We work on systems which are currently being used by millions of users.

What can you expect?

- Working on the latest technologies in identity management;
- Informal office atmosphere;
- An enthusiastic development team, where you can make a difference and where we promote innovation. Taking responsibility and sharing knowledge are key;
- We work with Agile methodologies, following the Scrum methodology;
- Digidentity consists of 80 international team members. Free lunch is offered, and you can enjoy it together with your team. Coffee, tea, fruit and soft drinks are always available;
- An easily accessible office location, next to The Hague HS station, and travel expenses are covered.

What do we expect?

- As Senior Technical Consultant you will play a pivotal role during the sales and implementation process;
- You will be the main technical contact for new customers;
- Your role will be to match customer requirements with our solutions, to design the solution from a technical point of view and to steer the implementation;
- It is critical for this role to be a strong team player internally but also towards the client, capable to build relationships and with a capacity to oversee and manage multiple projects with an on-time delivery.
