

## **UI/UX Senior Designer**

*40 hours/week*

*Are you a creative and passionate UI/UX designer? Do you have experience solving complex design problems for web and mobile applications? Are you looking to make a direct impact on a product? Then we are looking for you!*

We are looking for a talented UI/UX senior designer to create the future of Digidentity for our customers. The ideal candidate should be comfortable in all stages of product design, from discovery to delivery.

You should have an eye for crafting clean and effective designs, be able to translate high-level requirements into solutions that are beautiful, intuitive, and functional.

### **About Digidentity**

Everybody should be able to identify, authenticate and authorize him or herself online in a simple and secure manner. That is our mission! Digidentity offers possible solutions for secure digital communication between individuals, companies and Governmental agencies. For this purpose, we are continually developing new services and improving existing ones, such as 'Virtual Smartcard Technology'. This is to provide a unique digital identity, which a user keeps complete control of.

Digidentity is specialized in the delivery of certificates, authentication services and digital signatures. We work on systems which are currently being used by millions of users.

### **What do we expect?**

- Collaboration with product management and engineering to define product direction and experience;
- Conceptualize solutions that bring simplicity and usability to complex design problems;
- Conduct user research, test, and analyze to inform product decisions;
- Effectively communicate design solutions to customers, stakeholders and development teams;
- Establish and champion design guidelines, best practices and standards;
- Create the necessary design deliverables (wires, mocks, flows, etc.) for team alignment and handoffs.

### **Knowledge and Experience**

- 3+ years of experience;
- Strong portfolio that demonstrates your UI/UX experience and process;
- Excellent visual design skills;
- Proficiency in core design tools (We use Sketch);
- Ability to present your work in order to sell your solutions to customers and stakeholders;
- Ability to solve problems creatively and effectively;
- Up-to-date with the latest UI trends, techniques, and technologies;
- Experience working in an Agile/Scrum development process;
- Fluent in English and/or Dutch;
- Strong verbal and written communication skills.

### **What can you expect?**

- An enthusiastic team who encourages innovation and participation;
- Informal office atmosphere;
- Free lunch, coffee, tea and soft drinks at your disposal;
- Pension Plan;
- Travel expenses are covered;
- An easily accessible office location, next to The Hague HS station.
